I am a Frontend Developer who enjoys creating websites using HTML, CSS, JavaScript, and React. I can build responsive and user-friendly web pages. I know how to connect APIs, manage data using React state, and make fast-loading websites. I am always ready to learn more and improve my skills by working on real projects.

Education

- Bachelor of Science in Information Technology | 2021 - 2025**

Govt. Islamia Graduate College Civil Lines Affiliated with University of Punjab.

Key Skills

- HTML5.
- CSS3.
- Bootstrap.
- Tailwind.
- JavaScript.
- React Js.

Experience

1. AI-Driven Human Resource Management System – FYP

Technologies: React.js, Redux, Node.js, Express.js, MongoDB, Gemini
